Dion's Story

In 2006, Cisco resident Dion was unexpectedly diagnosed with the rare auto-immune disease granulomatosis with polyangiitis. In 2019, a disease flare-up left him with profound hearing loss in both ears and severe damage to his kidneys.

Dion is currently preparing for a life-changing kidney transplant.

When Dion realized the massive potential cost of a kidney transplant, which can easily exceed $440,000 before insurance, he turned to the trusted nonprofit Help Hope Live to fundraise. His generous community has already raised over $17,500 towards his $50,000 goal.
